

CAPABILITIES

Streamline Your Processes with IT Modernization & Digitization

Get rid of outdated systems and optimize your operations with Impact's IT modernization and digitization solutions and the guidance of experienced professionals.

Overview By the Numbers What You Need Client Results Insights Additional Expertise Get Started

Your technology should assist your operations, not be an obstacle to them. If your business goals are being hindered by legacy systems, outdated software, and slow protocols, you know it's time to modernize your whole company. Take advantage of Impact's solutions and technologies that help you bring your company into the present and guide it into the future.

BY THE NUMBERS

3

benefits of digitization

are efficiency, speed to market, and meeting customer expectations.

31%

of data loss incidents

are caused by system failures due to outdated infrastructure.

68%

of small businesses

don't have disaster recovery plans in place.

MANAGED IT

Bring Your Business Up to Speed with IT Modernization Solutions

Your IT environment, software, and technology should help your organization smoothly reach its goals. Impact takes a deep look into your infrastructure to find areas for improvement, such as legacy systems that are still being used, and software that costs more than it earns.

RUN A SMOOTH NETWORK

with Impact's IT experts who bring the skills needed to effectively support, monitor, and manage your business' IT infrastructure.

GET SUPPORT FROM A VCIO

(virtual Chief Information Officer) who provides insights into what your business may need to streamline.
